### ***Incoming President's Message***

*As local real estate industry professionals, we rely on one another every single day to get the job done. We have proudly built our communities with our professions as well as with our own bare hands. Let's continue shaping and growing our vibrant community here in Nevada County. I'm calling on you (yes, **you!**) to join one of the many great committees at NCAR so that all can benefit from your leadership, your guidance, and your input. Everything you love about Nevada County real estate is touched by NCAR and the wonderful volunteer leadership that exists. Elevate yourself in your RE career and join up for 2023.*

***2023 President, Steve Medina***

*Hello! Thanks for volunteering to form a brand-new tech committee for NCAR and our local RE community here in the foothills. As our area continues to grow and modernize, we all know how much tech plays an ever-growing role in our lives, our business, our fellow industry professionals, and our clients. With your experience, ideas, and forward-thinking mentalities, I know this committee will bring new & great things to the Realtors who serve here, as well as everyone they connect & interact with in their daily lives. A rising tide lifts all boats.*

*Next year will be here before we know it and we can use the time between now and then to think about what we want to bring to the table, and how we might contribute. Do you see an educational opportunity? Are there tools you'd like to put into the hands of fellow Realtors to help them succeed? Does the association staff and facilities have what they need to best serve the members (marketing, advertising, billing, communication)? Do you see a void or issue in our macro/micro RE industry and a possible solution?*

*And no need to wait until we spin things up if you have something to share now - in a way, we've already begun. :) Thanks again for stepping up personally and professionally to help create this exciting new committee!*
